

Permanence

Key Points

- There is never just one copy of something on the internet.
- Everything on the internet is permanent.
- Do not share material digitally if you do not wish the public to see it.
- If you are unsure whether to post something; don't or check with an adult you trust.

Questions

- Should you get permission from others if you want to post their pictures?
- How do you go about removing something from the internet?
- Does it make a difference whether you post text, images, audio track, or video?

Task

- What information is available on the internet about people with your same name? Find five current facts. Find five historical facts.
